MEMORANDUM

SUBJECT: Old Brazos Forge, Inc., Brenham, Texas
(TXD048901235)

FROM: Brian Burgess, Acting Chief
Superfund Site Assessment Section (6H-MA)

TO: Suzann Canton-Mckinney, Acting Chief
Oversight Section (6H-E0)

The Superfund Field Investigation Team (FIT) recently completed a Preliminary Reassessment and Preliminary Hazard Ranking System Scoring Package on Old Brazos Forge, Inc. in Brenham, Texas. During the review of the report, it came to the attention of my staff that this facility was actually an active RCRA facility with closed land disposal units.

Attached is a summary of our findings and a list of concerns. It would be greatly appreciated if your staff could clarify some of our concerns and determine if this site is still regulated under RCRA and subject to corrective action. Please contact Debbie Vaughn-Wright (x6740) if you have any questions.
